Our Responsible Sourcing Standards

REDUCING ENVIRONMENTAL IMPACT

We prioritize working with fisheries that minimize bycatch and ecosystem harm while protecting biodiversity and local habitats.

ENSURING QUALITY & CERTIFICATION STANDARDS

We receive multiple fresh seafood deliveries every week from certified sustainable fisheries, rejecting any products that do not meet our strict quality standards.

SUPPORTING ETHICAL LABOR PRACTICES

We exclusively work with suppliers that exhibit humane working conditions, with zero tolerance for exploitation or forced labor.

REQUIRING TRACEABILITY & AUDITS

We only work with suppliers who can provide full supply chain traceability and conduct regular audits to ensure they meet our high sustainability standards.
